PTR 06

PRODUCT SHEET

Last update:
04/13/2023

FEATURES

Protects the operator from direct frontal contact with rotating spindle parts and from projection of shavings and lubricant-coolant.

The semi-octagonal shield can be adjusted vertically by two different systems:
1) the shield / hexagonal arm group is adjustable inside the tubular stainless support and lockable with a knob (4).

2) possibility to choose the position of the shield by adjusting the shield support clamp (5) in the right position.

Complete with safety microswitch.

1. Anchorage stirrup - in pressed steel
2. Safety microswitch main box - rotation 180° - n. 2 NC contacts
3. Shield support vertical arm
4. Arm-shield adjustment knob for vertical arm
5. Shield adjustment knob as regards the supporting arm
6. Semi-octagonal shield - in polycarbonate

Safety guard with vertical shield. Adjustable with telescopic arm system. Suitable for installation on traditional drills, pantographs and similar machines.
